## Choose to Serve Your New Hometown!

Did you know that the Volunteer Fire Department is an indispensable part of the Emergency Response Service to your new community at college? If you served your hometown as a firefighter you can keep your skills sharp by joining and participating in our local volunteer department while attending college.

Even if you have no prior experience, you can participate in training that will enable you to respond to a variety of emergency calls. Contact us today to learn about becoming a volunteer firefighter at **Logan Township United Fire Department.**

## How Do I Become a Firefighter?

A successful candidate must be in good health and have no major physical handicaps.

Be at least 18 years of age and have a valid driver's license. (Responsible Juniors, age 14-17 with parental permission)

Live in close proximity to the fire station you intend to serve.

Respond to a minimum amount of calls. (Varies by Dept.)

Attend training and department meetings

Pass a background check and physical examination.

## Help Paying for School!

The Allegheny Mountain Firefighters Initiative offers benefits ranging from tuition reimbursement (Up to \$10,000) to insurance and more. You will also earn a broad range of practical skills through training and leadership opportunities. Beyond these tangible benefits, most volunteer firefighters agree that the greatest benefit is the opportunity to serve their community.

## The Thrill is Addictive!

Just as a meteorologist lives to chase the next storm, firefighters live for the next call. It doesn't matter if you're young or old, a new member or a vet, when the tones call and the siren sounds the alarm, volunteers drop what they're doing and are out the door they go in a flash.

Yet this heart pounding adrenaline rush of the first alarm is nothing compared to how you'll feel when you execute the training you have learned to defeat the fire or rescue someone from a bad situation.

It's not easy. In fact some calls are very tough, both mentally and physically. Sometimes duty calls you to do things that you would have never have thought you could do.

Our training programs are what turn common fear in to heroic action. After the call is over the feeling you get, knowing that you did what would cause some to faint with fright, is truly indescribable.
